Kellycrite Cookie Notice

Last updated: 21 October 2026

This notice lists the cookies this website sets.

1. Cookies we set

The website sets only the cookies needed to keep you signed in. They are set by our sign-in provider, Supabase, when you create an account or log in.

- sb-[project]-auth-token: holds your signed-in session. It may be split into numbered parts (for example .0 and .1) when the session is large. Kept until you log out or the session expires.
- sb-[project]-auth-token-code-verifier: a short-lived value used to finish an email confirmation, magic link or password reset safely. Removed once the sign-in completes.

[project] is the identifier of our Supabase project.

2. Cookies we do not set

There are no analytics cookies, no advertising cookies and no tracking pixels on this website. If you only visit the public pages and never sign in, no cookies are set.

3. Third parties

When you continue to payment you leave this website for the Shopify checkout. Shopify sets its own cookies there, described in Shopify's own privacy and cookie information.

4. Why there is no cookie banner

The cookies above are strictly necessary to provide the account you ask for, so we do not ask for consent to them. If we ever add a cookie that is not strictly necessary, we will update this notice and ask for your consent first.

5. Contact
